What is nOGA™?

Our NOGA™ brand has been created in order to encourage our clients to utilize and benefit from the vast array of holistic healing modalities available in today's world that are permissible according to Torah Law. Nevertheless, NOGA™ products and services are generally free of any religious or cultural bent: NOGA™ is our "pareve" - neutral brand.

In holiness there are three strata. There is the realm of the holy or "a mitzvah"; there is the realm of the unholy or the impermissible. The third domain is "*kelipat noga*" - literally – "the husk that glimmers." In this realm, things can either be elevated or denigrated. Utilizing items in the realm of *kelipat noga*, or the natural world, one can spiritually elevate them to a 'better position.' Without human intervention, this realm is neither holy nor profane. When we take anything created by G-d and use it for our benefit in a positive or healthy way, we actually elevate that thing and transform it from something that was once neutral to something that can now be considered holy because it has brought healing to both the body and the soul. Matters of therapy, medicine, exercise, diet and healthy lifestyle overall, are those things that fall in the realm of *kelipat noga*.

Self-help requires therapeutic tools, methods, techniques and information that may not be directly commanded by Torah. However, The Torah states (Deuteronomy, 4:15), "You should guard your souls [lives] very well." Maimonides, in Hilchot De'ot 4:1 says, "Because to have a sound and healthy body is among the ways of Hashem...therefore a person must distance himself from those things that cause his body damage." Thus, enhancing our health and wellbeing becomes a holy act through our efforts. As the Maggid of Mezeritch said, "a small physical defect is a great spiritual one." It is by feeling healthy and robust that a person is able to serve G-d to his best capacity – with all his heart, soul, and might. A healthy body/mind facilitates our best performance in day-to-day life, and in our uniquely human task to elevate and improve our surroundings.

The Talmud states, "Sanctify yourself by [the proper use of] that which is permitted to you" (*Yevamot, 20a*). The NOGA® brand utilizes the permissible to facilitate health and healing. We hope you enjoy it!

TO LIFE AND TO HEALTH!
